## 23 OF JUNE

In the shortest night of the year, in Sigüenza we celebrated San Juan, it's one of the days most expected by Seguntinos .

Regarding the beginnings of the celebration, it has already been celebrated before Christ's birth. It's believed that the Earth and the moon fell in love in that day, and in the shortest night of the year, they joined together. Nowadays, it's celebrated by Juan Bautista's birth, who christening and help Jesus to preach. It was his father Zacarías who ordered to light bonfires.

All year around, some Seguntinos form "La Rondalla". On the one hand, it's composed by musicians who play the guitar, the bandurria or the dulzaina and singers. On the other hand, there are dancers called "Sanjuaneros" and "Sanjuaneras". A few days before, in neighbourhoods, one goes from house to house "stealing flowers" to decorate the arches that will make on the 23rd.

In June 23<sup>rd</sup>, each neighbourhood makes a flower arch composed of several others, while the children go from house to house or stop people to ask them for a "limosnita" for their bow. People visit all the arches that are full of flowers, children and of course of joy. Besides, people are all singing and dancing. There is also a contest in which the best bow wins, then with that money snacks are organized. Later in the main square, in front of the town hall, a bonfire is made and there is a performance of the rondalla with the sanjuaneros and sanjuaneras.

In the morning of the 24<sup>th</sup>, many girls are at the door of their houses with flowers or thistles, because that night the young boys are giving roses to the beautiful girls and thistles to the ugly girls, this is usually done among friends and jokes are made, sometimes even a boy can declare his love to the girl he likes.

## GRADUATION

Everything was being organized, it took a few weeks to prepare everything and a whole year studying for this day.

On May 17th, the graduation of 2<sup>nd</sup> of bachillerato and Advanced Degree in Sports took place. "The end of one stage and the beginning of another", as some of them said in his speech.

As every year we start with a very emotional act and then we all go outside to the inside playground, but sadly this year it started to rain after a week of splendid sunshine; luckily, everything was solved when Don Ángel Cristo said: "Wet bride, lucky bride "so

"Wet graduate, degree assured ". Sowe continued the graduation inside the chapel, in which the entire promotion entered alluded to applause, with couples of friends, brothers, cousins, girlfriends, boyfriends, teachers...

The graduation continued with the speech of his tutor Don David and two other students (Javier Martínez, Carmen García and Pedro Hervás) and then the delivery of diplomas and borders.

Later, a peck was made together with all the families, teachers and students of the school.

It was a rainy day to remember.

## FINAL PARTY

Now that the end of the course date approaches, we wanted to tell how this day has changed over the years.

I was in the Ursulines and now I am in the Safa, I remember that we spent a lot of time preparing the final party. Each year a theme was chosen, the last one that was celebrated was "The Stubborn

One" by Benito Pérez Galdos. During the third term each course prepared a performance with music according to the theme, we bought or made the costumes and costumes for the act. After all the quarter the expected day arrived. First, in the morning we celebrated a show in the Oasis

and then we went to the dances that were held on the lawn in front of the stands. We were all very nervous and we were very excited.

Once we finished the representations the school cooked a barbecue and we could go to the pool, throw ourselves by the zip line ... It was a wonderful day and very fun.

Nowadays, we are no longer do performances but one of the last days of the course we gathered the whole school in the Oasis in the afternoon. They put inflatable castles, paintball, open the pool, ride a zip line, play and make a snack barbeque. We always end up all soaked because of the water war we do with balloons and even with water bottles.

We had a great time laughing and enjoyed a lot.

## Summercamps

- Urban camp "los doncelitos"

The urban camp 2017 "Los Doncelitos" will take place from July 3rd to 28th, four weeks of coexistence where your children will develop their physical abilities, take responsibility for their rights and duties, begin to develop their personality and begin to act as Christians and members of the church.

It will be developed in the sports facilities of the Oasis, ideal for practicing sport in all its modalities: skating, archery, dressage, basketball, cycling, canoeing, swimming...

We will also have other activities and workshops: camping (overnight stay), crafts, horse riding, multi-adventure, zip line, hiking, research workshop and English workshop, where we will promote the learning of this language through songs and games every day. I will be carried out by qualified instructors and instructors.

Limited places.

All in a climate of friendship, happiness and community.

### **God of War :**

Amazing game that hooks you to the story from the beginning, with a level of difficulty to suit any player. The combat system has grown enormously, and if you put the difficulty in the god mode of war, prepare to live each combat with a system of the most demanding and having to refine your technique to the bloodborne style. Graphically incredible, great sound section. If you enjoy them in ps4 pro, you will realize that it is above all the titles that came out until now. If you do not have ps4 it's worth it to buy it simply for this title

### **State of Decay 2 :**

State of Decay 2 is the sequel to the popular and fun open-world zombie game that has already engrossed Xbox fans in the past generation. This new release will include improvements and will arrive on May 22, 2018 for Xbox One and Xbox One X. The objective in the game will be the same as that of the first delivery, trying to gather people in a

community and keep them safe from the living dead, getting food, ammunition and ammunition to survive as long as possible. The greatest fun of State of Decay lies in its cooperative multiplayer section. State of Decay 2 will be an Xbox Play Anywhere game, so it will be available both for the three versions of Xbox One and for the compatible ones that have Windows 10 as the operating system.

### **The new 'Assassin's Creed'**

The new installment of the series 'Assassin's Creed' will be called 'Odyssey'. It has been officially announced by Ubisoft, the studio that created and develops this successful and veteran title. The official Twitter account of 'Assassin's Creed' confirmed this Thursday. Actually, the French study has not revealed much more. A teaser trailer of only 5 seconds shows us a name and a promotional image, in short, a concept. So we know that the new murderer of 'Assassin's Creed: Odyssey' will be a hoplite, a

soldier-citizen of Ancient Greece. The game happens a few years after 'Assassin's Creed: Origins', when classical Greece is dominated by the Roman Dynasty Flavia. Throughout our adventure we travel Thrace, Achaea, Macedonia, Epirus, the Aegean Sea and the Ionian Sea. Apparently, Ubisoft has boosted navigation and battles with ships, and the facet RPG, already highly developed in 'Assassin's Creed:

Origins'. 'Odyssey' will be the next installment after 'Origins'; some comment that it can be a sequel to it.

## **INSIDE THE PRINCE OF EGYPT**

Interview with ALEJANDRO SAUCO

*Do you have a good role in the musical?*

Well....,I am quite dissapointed, because English is not one of my strong point, and as you know the musical is in English. I played the character of Jethro (Sephora's father), he has a leading role in one of the scenes, so I feel quite anxious about it.

*How is the musical going on?*

From my point of view, it's not going as we expected, time is running, we have exams, projects....and due to lack of time we are not rehearsing as much as we wanted to...You know the world of theatre can be a mess !(he admitted laughing)

*Can you tell our readers any gossip behind scenes?*

I think (maybe it's not appropriate to say this), but there is some attraction between some of the characters, specially between second characters with leading roles...Though things are not really clear...I will keep investigating.

*What are some of your projects for the future?*

My intentions is to finish high school without any retake. Actually, I'm waiting for my graduation party, it's gonna be awesome!

## **A NIGHT TO REMEMBER**

Interview with ALBERTO SIERRA

*What is your opinion about the graduation party, which took place last month?*

I think the graduation was great. You could feel how well people get with each other, even some flirting

took place between graduates and old students. It was a funny night, full of memories...and gossips!

*Did you miss anyone at the party?*

Actually, I thought that Mr Pedro was going to be there hanging around, but in the end he didn't appear, so it was quite disappointing, he is life and soul of the party.

**Exclusive interview: Mr Miguel Angel, headmaster of SAFA**

*How many years have you been in school?*

I have been a total of 8 years, 3 years in charge of pastoral as well as tutor of the boarding school, and 5 years as headmaster.

*Do you think your current position as headmaster is hard?*

Well, it seemed to me until I managed to recognise myself as a headmaster, because by nature I liked being a guardian or pastoral minister, instead of someone with a ruling position.

*Do you prefer hiring young people or older people with more experience?*

I prefer young people but with good training. As you know we are in a school with special features which require people to adapt to

it. Young people will be able to adapt more quickly to the educational style of the school.

*Do you like teaching with new technologies?*

In my opinion, we should find a happy medium; taking advantage of new technologies but without losing the basis of traditional study.

*Would you like to last more years as a headmaster or do you want "to leave office" soon?*

Hard question, it depends on what the bishop says. I would like to finish the project we have started before I stop being a headmaster. However, when I leave the school I don't I will continue here, since I think it's not a good option to continue in the school; I would go as a parish or to another school.

*What would you highlight about bachillerato (A levels) in general?*

The good atmosphere that has been in the two classes, created by the classmates. I think is the main thing. Regarding the academic level, I would highlight the work, the positive evaluation of the staff meeting and the grades of Science students from the 2nd year; that's why I desire and expect a good EVAU.
